CURRENT DATA PRESERVATION METHODS ARE STALE

• Data is NOT Information and Information is NOT Knowledge
• Think Beyond the Silo, as Archiving is Central to the Information Life Cycle!

REAL CHANGE IS CULTURE CHANGE

• Don’t “Entomb” Your Data – Embrace It!

IT IS TIME TO RETHINK YOUR APPORACH TO DATA PRESERVATION

• Enabled by your input we have created a data preservation platform for the future!

Great companies start because the founders want to change the world... not make a fast buck. - Guy Kawasaki
Introducing ZONTAL Space: The Future of Data Preservation

While others still talk about Data as an Asset, we have the solution to live Data as an Asset

Three Conditions for Data as an Asset:

1. You have a real asset management system!

2. You can actually use your archives & data to capitalize on the value!

3. It is on your balance sheet!
